### Bright Future at G.B.L. Convent School - Abhishek Modanvall (IX)

My self Abhishek Modanvall, the student of IX class and I am the vice captain of Kalindi House. I am very thankful to G.B.L. Convent School for giving me the right path to my future. School life is very important part of one's life, because it provides opportunity for study and discipline besides there the school life is a preparatory stage for entering public life. School plays an important role in widening the outlook of students virtues such as perseverance, sincerity, truthfulness, tolerance, discipline and obedience developed in pupils. School provides opportunities to the students to be disciplined. They shows discipline in class rooms, hostel, library and other places. School is a meeting place of students and teachers. From here, a student learns how to adjust himself with the society at later part of life. Teachers act as the guides and guardians to guide them on the right path. In school, teachers try to remove the evils from the students by sowing some seeds of good qualities in them, in library, their knowledge and style. About all, in examinations they try to show their brilliant performance. Thus they get opportunity to expand their activities. School has definitely a healthy influence upon students, but some students indulge in bad company and get away from the impact of their teachers. Those miss the chance of their school life.
